

DAY 13

Capture The Flags : -

Capture The Flag (CTF) competitions in cybersecurity are events where participants engage in challenges that simulate real-world cybersecurity scenarios. These competitions are designed to test and improve the skills of participants in various aspects of cybersecurity, including hacking, defending systems, and solving security puzzles. Here are some key aspects of CTF competitions.

Websites To Practice CTF

1. Pico ctf

2. Hack the box:

Your Cyber Performance Center

We provide a human-first platform creating and maintaining high performing cybersecurity individuals and organizations.
